

One More Reason

HotWax

Give me one more reason to love you
Give me one more reason to hate
Give me one more reason to love you
Give me one more reason to hate

Say it to my face
I won't believe things, they will come true
Say it to my face
If I believe it, will it become

Hate our love
Hate my love
I hate our love
Hate my love

Give me one more reason to love you
Give me one more reason to hate
Give me one more reason to love you
Give me one more reason to hate

Give me one more reason to love you
Give me one more reason to hate
Give me one more reason to love you
And I'll give you one more reason to hate

Give me one more reason to love you
Give me one more reason to hate
Give me one more reason to love you
And I'll give you one more reason to hate

Say it to my face
Say it to my face
Say it to my face
Say it to my face
