HotWax

In my pharmacy  
On a busy road  
An orchestrated piece of chaos I can hold  
Well, memories can fill my hands  
All you could need, I need no plans

I cannot take this softly  
Back to the river where you shocked me  
I cannot take this softly  
Back to the river where you shocked me

An orchestrated piece of chaos I can hold  
Well, memories can fill my hands  
All you could need, I need no plans

I cannot take this softly

I cannot take this softly
