

# She's Got A Problem

HotWax

She's got a problem  
She's got real big problems ahead  
She's got a problem  
Got real big problems ahead

See her on my door frame  
See her every day  
Chipped somethin' off my shoulders  
Gotta keep it in my pocket real safe

I wanna feel the way you feel  
I wanna see the way you see  
I wanna think the way you feel  
I gotta get a hold on me

She's got a problem  
She's got real big problems ahead  
She's got a problem  
Got real big problems ahead

I wanna have it my way, but she's got other ideas  
Kissin' me into the dirt, the dirt of a thousand tears

I'll try to steal her back for me  
I'll try, I'll try

I wanna feel the way you feel  
I wanna see the way you see  
I wanna think the way you feel  
I gotta get a hold on me  
I wanna think the way you feel  
I wanna see the way you see  
I wanna think the way you feel  
I gotta get a hold on me
