

## When We're Dead

HotWax

Unhealthy confession, I'm controlled by my possession  
Stop sleeping in my head, now its burning bright red  
Oh the feeling gets too deep it starts to sink into my sleep  
The feeling of young love now its hard like concrete

I'm never gonna leave you, coz I love you  
The feelings just too true, it hurts my head  
Can we even get closer, this isn't over  
I'm always gonna love you, even when we're dead

Even when we're dead!

I'm never gonna leave you, coz I love you  
The feelings just too true, it hurts my head  
Can we even get closer, this isn't over  
I'm always gonna love you, even when we're dead  
I'm never gonna leave you, coz I love you  
The feelings just too true, it hurts my head  
Can we even get closer, this isn't over  
I'm always gonna love you, even when we're dead
