

## Cool Jam

Houndmouth

Don't you wish you was a beauty queen  
Bad breaks arriving in a limousine  
Take the back seat, Jack  
It'll be alright  
That's where the others and the lovers hide

This lonely star  
It don't flame like it used to, honey  
This love of ours  
It don't burn like it used to

Used to see her down at the Alamo  
Selling loosies at the Cum and Go  
Cinderella's in a bind again  
Come tomorrow she'll be just fine again

This lonely star  
It don't flame like it used to, honey  
This love of ours  
It don't burn like it used to

Mother Nature's an American  
Took the kids and split in a minivan  
Let's meet at Billy Joe's at 7:45  
Ain't no heaven when you're having a good time

This lonely star  
It don't flame like it used to, honey  
This love of ours  
It don't burn like it used to

This lonely star  
It don't flame like it used to, honey  
This love of ours  
It don't burn like it used to
