

# Goodbye

Houndmouth

I guess she left and took the high road  
Never did get too far  
Left me lonesome in the moonlight  
And shining in the rearview like a star  
She claimed to fly UFOs at night  
Call you up the next day  
Talking at the speed of light

Oh, goodbye  
Goodbye, love  
All that's left inside my mind

She put a bounce into the two-step  
A swing into a slow dance all the same  
Turned her thoughts into objects  
Turned the rest of us insane  
She seemed to like  
Half red and white  
Pharmaceutical doses  
Instead of roses

Goodbye  
Goodbye, love  
All that's left inside my mind

Doesn't matter much to me  
I do just fine when I'm all alone  
Whatever will be they say will be  
So you better get used to the great unknown  
She claimed to fly UFOs at night  
Call you up the next day  
Talking at the speed of light

Oh, goodbye  
Goodbye, love  
All that's left inside my mind  
Goodbye, oh  
Goodbye, love  
See you on the other side
