

## This Party

Houndmouth

Everybody looks the same  
When the camera fades away  
But it's okay to feel so strange  
If you ain't gonna show your face  
It doesn't have to be this way  
I know why you perceive the wave  
Emotional

I'm talking you up, I know I shouldn't  
But I'm talking you up

I don't wanna be at this party  
I just wanna make the night move  
I don't wanna be at this party  
Dancing alone without you

The monster movie sky  
State of mind  
In your nitrogen eyes  
They burning Egyptian Blue

I'm talking you up, I know I shouldn't  
But I'm talking you up

I don't wanna be at this party  
I just wanna make the night move  
I don't wanna be at this party  
Dancing alone without you

I don't wanna be at this party  
Feeling kind of strange and  
Everybody's gonna be dancing  
I don't wanna be at this party, without you

I don't wanna be at this party  
I'm feeling kind of strange and  
Everybody's gonna be dancing  
I don't wanna dance without you, baby

I don't wanna be at this party  
I just wanna make the night move  
I don't wanna be at this party  
Dancing alone without you

I don't wanna be at this party  
I just wanna make the night move  
I don't wanna be at this party  
Dancing alone without you
