

# Enemy Mine

House of Lords

One Sigh  
One Lie  
Made a friend an enemy mine

In your arms.  
is a witness to a crime.  
Safe from harm.  
Denying everything he's seeing

In your hands.  
Out of sight out of mind.  
Is a man.  
Disgusted by the scene he's fleeing

I've gotta try to save myself.  
Too late to wait.  
To make confession.

With just one sigh. One Lie.  
Made a friend an enemy mine.  
But a viper among the vines!  
One Light. One Night.  
Anger and an open flame combined  
This enemy of mine is me!

In my eyes.  
Is an unfamiliar face.  
In disguise.  
A stranger acting like I know her

I've gotta try to save myself.  
Too late to wait.  
To make confession.

You... made a sacrifice.  
And I... stole what was given.  
Through... My former life.

Now I'm... dying living.

One sigh. One Lie.  
Made a friend an enemy mine.  
But a viper among the vines!  
One Light. One Night.  
Anger and an open flame combined  
This enemy of mine is me!
