

# I Believe

House of Lords

Sometimes I just fall so hard  
I can't catch my breath or hold back my emotions  
I'm out on the edge with you  
It's not white or black, only love and devotion  
Sometimes the rain rolls right off our backs  
Sometimes it feels like we're both going under  
Sometimes the truth falls between the cracks  
But there's never a reason to turn away

I believe we can make it  
If we just let our hearts lead the way  
I believe we can take it  
If we don't fall apart along the way

We keep praying the winds will changes  
And we'll find our place in the sun together  
Oh, I've been counting on better days  
That won't fade away and take us to forever  
Sometimes the train rolls across the tracks  
Sometimes we both feel the pain and the hunger  
Sometimes desire is all we lack  
But there's always a reason to keep the faith

I believe we can make it  
If we just let our hearts lead the way  
I believe we can take it  
If we don't fall apart along the way

Don't be afraid  
It's a true love, it's a true love

I believe we can make it  
If we just let our hearts lead the way, lead the way  
I believe we can take it  
If we don't fall apart along the way, hey, yeah

I believe we can make it  
If we just let our hearts lead the way  
I believe we can take it  
If we don't fall apart along the way, oh, yeah

I believe we can make it  
If we just let our hearts lead the way  
Lead the way, oh...  
I believe we can take it  
If we don't fall apart along the way
