

# The Other Option

House of Lords

I was a kiddie in a candy store  
Saved up my pennies and I hid them all away  
And whiled away hours  
To be a grown-up looked so wonderful  
And even older children seemed to be so cool  
Their hands on the steering wheel

If youth is wasted on the young  
Well then age is just exhausted by the aged

I don't care for getting older but it's  
Better than the other option  
It's much better than the other option  
I don't care for getting older but it's  
Better than the other option  
So much better than the other option

I always thought that I was killing time  
Until one day - epiphany just hit me - no!  
The opposite is paradigm  
And all the years I wasted in my head  
Waiting for life to happen while those seconds sped  
Now I chase every one 'til I'm dead

Yeah youth is wasted on the young  
And now I'd like to register dissatisfaction

I don't care for getting older but it's  
Better than the other option  
It's much better than the other option  
I don't care for getting older but it's  
Better than the other option  
So much better than the other option

And you can't tell 'em and I know why  
And you can't tell 'em, don't you try  
It's plain to see when all is said and done  
'Cause nobody could tell me when I was young

I don't care for getting older but it's  
Better than the other option  
It's much better than the other option  
I don't care for getting older but it's  
Better than the other option  
So much better than the other option

Oh whoahoh... Better than the other  
Oh whoahoh... Better than the other  
Oh whoahoh... Better than the other
