

# We Will Always Be One

House of Lords

You're the dark side of the moon  
When I'm a million miles from you  
I long to be there soon

Just to shine a light for you

We're as haunted as the sky  
If broken wings can learn to fly  
So can you and I

One light thing are born to change  
Dark night coming down like purple haze  
Face to face we blind the sun  
Yea we got it on the run  
We will always be one

As we climb to higher highs  
Can you remember what it's like  
To jump from a speeding train  
And feel your heart race once again

Oh the miracle of you  
Feel the power coming through  
Do you feel it too?

One light thing are born to change  
Dark night coming down like purple haze  
Face to face we blind the sun  
Yea we got it on the run  
We will always be one

We're as haunted as the sky  
If broken wings can learn to fly  
So can you and I

One light thing are born to change  
Dark night coming down like purple haze  
Face to face we blind the sun  
Yea we got it on the run  
We will always be one
