

# You Might Just Save My Life

House of Lords

I took my chances where I found'em  
Let no prisoners on the way  
As I began to climb the highest mountain

I left my footing slowly slip away

Are you gonna  
You gonna  
You gonna  
Be there tonight?  
Are you gonna  
You gonna  
You gonna?  
Oooooohh!

'Cause you might just save  
My life tonight  
Like you always do when I'm losing the fight  
I could waste away, from the demons inside  
Or reach out to you one more time  
Are you gonna save my life tonight,  
Someone better save my life tonight

You saw the little shild inside me  
You saw the error of my ways  
In you I know I have a light to guide me  
I Hope will never ever fade away

Are you gonna  
You gonna  
You gonna  
Be there tonight?  
Are you gonna  
You gonna  
You gonna?  
Oooooohh!

And I may never change  
You gotta know right now  
Oh and my love for you remains the same  
'Cause you might just save  
My life tonight  
Like you always do when I'm losing the fight  
I could waste away, from the demons inside  
Or reach out to you one more time
