

Breathe Again

Housefires

Every word that you speak
Is a kiss from You
Every breath that you breathe
Is bringing life to me
I'm wide open

You're breathing now
All around
We take You in, all You are
You're breathing now
All around
We take You in, all You are

Every word that you speak
Is a kiss from You
Every breath that you breathe
Is bringing life to me
I'm wide open
I'm wide open

You're breathing now
All around
We take You in, all You are
You're breathing now
All around
We take You in, all You are

You're breathing now
All around
We take You in, all You are
You're breathing now
All around
We take You in, all You are

Where You are
There is peace, Oh Jesus
When You come
You bring winds of freedom
All fear removed
We receive You, Jesus
Starting to breathe again

Where You are
There is peace, Oh Jesus
When You come
You bring winds of freedom
All fear removed
We receive You, Jesus
Starting to breathe again

Starting to breathe again
Starting to breathe again

You're breathing now
All around
We take You in, all You are
You're breathing now

All around
We take You in, all You are
