

# Don't Get Me Started

Housefires

(His goodness)  
Don't get me started on His faithfulness  
Don't get me started on His goodness  
I could talk about it all day long

Don't get me started on His goodness  
Don't get me started on His faithfulness  
Don't get me started on His goodness  
I could talk about it all day long

Don't get me started on His goodness  
Don't get me started on His faithfulness  
Don't get me started on His goodness  
I could talk about it all day long

Don't get me started on His goodness  
Don't get me started on His faithfulness  
Don't get me started on His goodness  
I could talk about it all day long

God I've known You as a Father  
I was lost You brought me home  
And God I know You as a mother  
Held in Your arms, I'm fully known

Yeah, this is my story, this is my song  
My testimony goes on and on  
And even a lifetime would never be enough  
For me to tell of all You've done

God I've known you as a gardener  
You've tended well my weary soul  
You're the maker, the great creator  
I'm in your hands becoming whole

This is my story, this is my song  
My testimony goes on and on  
Even a lifetime would never be enough  
For me to tell of all You've done

This is my story, this is my song  
My testimony goes on and on  
And even a lifetime would never be enough  
For me to tell of all You've done

(Well I can tell of all You've Done)

Don't get me started, don't get me started  
Don't get me started

Don't get me started on His goodness  
Don't get me started on His faithfulness  
Don't get me started on His goodness  
I could talk about it all day long

Don't get me started on His goodness  
Don't get me started on His faithfulness

Don't get me started on His goodness  
I could talk about it all day long

Don't get me started on His goodness  
Don't get me started on His faithfulness  
Don't get me started on His goodness  
I could talk about it all day long

Don't get me started on His goodness  
Don't get me started on His faithfulness  
Don't get me started on His goodness  
I could talk about it all day long

This is my story, this is my song  
My testimony goes on and on  
And even a lifetime would never be enough  
For me to tell of all You've done

I could tell of all You've done  
Let me tell of all You've done  
Let me tell of all You've done  
Let me tell of all You've done

Let me tell of all You've done  
Let me tell of all You've done  
Let me tell of all You've done  
Let me tell of all You've done  
Let me tell of all You've done

This is my story, this is my song  
My testimony goes on and on  
And even a lifetime would never be enough  
For me to tell of all You've done
