

Get Back To The Well

Housefires

Gotta get back to the well
We gotta get back to the well
Gotta get back to the
Gotta get back to the well

Gotta get back to the well
Gotta get back to the well
Gotta get back to the well
Gotta get back to the well

Have you tried it on your own
But every time you fail
You gotta get back to the well
Gotta get back to the well
Is there no fire in your bones
Is it hard for you to feel
You gotta get back to the well
Gotta get back to the well

Are you hungry, thirsty, wondering and searching
There is a well, sure to satisfy
Are you needy, weary, so tired of being empty
Every day, you're barely getting by
There's a well to satisfy
There's a well to satisfy

Time to lay down the excuse
For the idols that we built
It's time to get back to the well
It's time to get back to the well
We've been running around too long
Chasing time, and empty thrills
It's time to get back to the well
It's time to get back to the well

Are you hungry, thirsty, wondering and searching
There is a well, sure to satisfy
Are you needy, weary, so tired of being empty
Every day, you're barely getting by
There's a well to satisfy
There's a well to satisfy
There's a well to satisfy
I know, I know, I know
There's a well to satisfy

We'll build my altar where there's living water
We'll satisfy, you will satisfy
I will build my altar where there's living water
We'll satisfy, you will satisfy
I will build my altar where there's living water
You will satisfy, you will satisfy
I will build my altar where there's living water
You will satisfy, you will satisfy
You will satisfy, you will satisfy
You will satisfy, you will satisfy

Are you hungry, thirsty, wondering and searching

There is a well, sure to satisfy
Are you needy, weary, so tired of being empty
Every day, you're barely getting by
There's a well to satisfy
There's a well to satisfy
There's a well to satisfy
There's a well to satisfy

And Your well will never run dry
Your well will never run dry
Your well will never run dry
I know it won't
Your well will never run dry
Your well will never run dry
Your well will never run dry
I know it won't, know it won't
Your well will never run dry
Your well will never run dry
Your well will never run dry
I know it won't, know it won't
Your well will never run dry
Your well will never run dry
Your well will never run dry
I know it won't, know it won't

Are you hungry, thirsty, wondering and searching
There is a well, sure to satisfy
Are you needy, weary, so tired of being empty
Every day, you're barely getting by
There's a well to satisfy
There's a well to satisfy
There's a well to satisfy (Yeah, You always satisfy)
There's a well to satisfy (Yeah, You always satisfy)

You always satisfy
You always satisfy
You always satisfy
You always satisfy
