

Pastures

Housefires

You give me peace that surpasses all my understanding
And love that is deeper than all I know
You give me peace that surpasses all my understanding
And love that is deeper than all I know

You lay me down in the greenest of pastures
And I am found by the One my heart was after

You give me peace that surpasses all my understanding
And love that is deeper than all I know
You give me peace that surpasses all my understanding
And love that is deeper than all I know

You lay me down in the greenest of pastures
And I am found by the One my heart was after
You lay me down in the greenest of pastures
And I am found by the One my heart was after

You lay me down
You lay me down

Where else could I go?
With You I am home
Where else could I go?
With You I am home

Where else could I go?
Oh, in You I am home
Where else could I go?
With You I am home

Where else could I go?
With You I am home
Where else could I go?
With You I am home

You lay me down in the greenest of pastures
And I am found by the One my heart was after
You lay me down in the greenest of pastures
And I am found by the One my heart was after

You lay me down in the greenest of pastures
And I am found by the One my heart was after
You lay me down in the greenest of pastures
And I am found by the One my heart was after
