

Interiors

Housse de Racket

Let's live together, together in a shelter
Could we be the center of the universe?
It may rain, it may snow of course the wind may blow
Quietly we stare at the city through the window

We're looking for a little peace of mind
Everything is fine
I'm yours and you are mine

Let's live together, we've got everything we need

So leave us, leave us at our own chosen speed
Let's look in the telescope, the stars, the hopes
Don't have to decorate our interiors

We're looking for a little peace of mind
Everything is fine
I'm yours and you are mine

I'm sorry but I'm not this kind of guy
Everything is fine
I'm yours and you are mine
