

Turquoise

Housse de Racket

Slowly I realize
I've been hypnotized
Please don't you cry, please don't you cry
I can't memorize but I give a try

We need to be together
Remember girl, like we once were
Dance to the song, dance to the song
Communication breakdown

We're going to a place
Going to a place on the edge of town
Would you go my friend?
My friend, we're going turquoise

Slowly I realize
We've been digitalized
Please don't you cry, please don't you cry
Soon we'll move to the countryside

Who's the one to criticize?
Who's the next to idolize?
Dance to the song, it's four minutes long
Communication breakdown

We're going to a place
Going to a place on the edge of town
Would you go my friend?
My friend, we're going turquoise
We're going to a place
Going to a place we won't be found
Would you go my friend?
My friend, we're going turquoise

I take you to a place
Take you to a place we won't be found
Would you go my friend?
My friend, we're going turquoise
