

I Was Terrible

How to Dress Well

I don't wanna wait, I won't hesitate
I wanna call the President and say what's right
Just record it on video tape so you can fall asleep
Let it play all night
I don't wanna wait, I won't hesitate
I wanna call the President and say [?]
Make a change tonight so I can make it right
What was wrong all those times

Know, know I will find a way
Know, know love will find a way

But time is set in stone, no
I was terrible
And I won't deny that
Said no
I was terrible
And I won't deny that, can't deny that

Love you sleeping away
I will find you and bring you home
If you feel anxiety
You're so much stronger than you know

That won't go, no that won't go

I don't wanna wait, I won't hesitate
I wanna call the President and say what's right
Just record it on video tape so you can fall asleep
Let it play all night
I don't wanna wait, I won't hesitate
I wanna call the President and say its time
Tell you this right now
So we can celebrate about the chorus line

Know, know love will find a way
Know, know love will find a way

But time is set in stone, no
I was terrible
And I won't deny that
Said no
I was terrible
And I won't deny that, can't deny that

Love when you're sleeping away
I will find you and bring you home
If you feel anxiety
It's so much stronger than you know

Won't deny that, can't deny that
