Eagle Will Fly Again

Howard Jones

Did I choose to be the one without a hope in hell
Show the world the loaded dice could work for me as well
Could I see the road ahead would take me to the edge
Way beyond the comfort zone to where my fear lives

It's all I could think about from when I was a child
I'm not taking no for an answer now
I'm come so far I've tried

You see me falling
But I'll get back up for them
My dream is calling
Eagle will fly again

Slap me down the four eyed clown
Will only come back strong
Ride the wind through snow and ice
To prove the whole world wrong

It's all I could think about from when I was a child
I'm not taking no for an answer now
I'm come so far I've tried

You see me falling
But I'll get back up for them
My dream is calling
Eagle will fly again
You see me falling
But I'll get back up for them
My dream is calling
Eagle will fly again
...
