Even If I Don't Say

Howard Jones

Livin'
From day to day
By your side
All the give and take
Wouldn't change that
For the universe
You've always seen me
Through the best and the worst

And it's not like
I'm tongue-tied
Or words get in my way
But I love you
And it's still true today
Even if I don't say

Like a diamond
With a thousand sides
You sparkle
And reflect the light
In the dark days
When I can barely see
You find the blue sky
Bring it out in me

And it's not like
I'm tongue-tied
Or words get in my way
But I love you
And it's still true today
Even if I don't say

(Shoop da waddy Shoop da waddy Shoop da waddy bop Shoop da waddy waddy)
Lookin' back on all our years
Every battle won has laid the path we're walkin' on
So let me be clear
I'm so glad that you're here

By my side
From day to day
Through hard times
And the give and take
Built a love strong
As the universe
Fighting beside you
Through the best and the worst

And it's not like
I'm tongue-tied
Or words get in my way
But I love you
And it's still true still true today
And it's not like
I'm tongue-tied
Or words get in my way
But I love you
And it's still true

Today
Even if I don't say
Even if I don't say
Even if I don't say
