

# Hold On to Your Heart

Howard Jones

Hold on to your heart  
Know this pain won't last  
Sharing moments close to you feels right  
We'll be brilliant passionate tonight

Don't be afraid to take your chance  
It's your life and you're not alone  
When you're feeling like you lost control  
We got to take it back, take it back  
Don't let them tell you that you got no hope  
Now's your time when you're on the ropes  
It doesn't matter what has been and gone  
We can start again, start again

Hold on to your heart  
Know this pain won't last  
Sharing moments close to you feels right  
We'll be brilliant passionate tonight
