

Risk

Howard Jones

Don't be scared to lose it all, it's only life
Otherwise you'll end up something you don't like
Dreams of the future won't make tomorrow come
Take a chance, we're equal underneath the sun

Don't be scared to lose it all
Don't be scared to lose it all
Don't be scared to lose it all
Don't be scared to lose it all

Boy meets girl oh how they want each other
Too shy to talk or take a chance
To ask him out or her to dance
But just in case they daren't lose face
I'll get one when I'm older

Don't be scared to lose it all
Don't be scared to lose it all
Don't be scared to lose it all
Don't be scared to lose it all

Take a chance, become someone, leave out those fears
Sometimes we'll win, sometimes we'll lose over the years
Let's see some action and forget the past
So treat today as though it were our last

Don't be scared to...
Don't be scared to...
Don't be scared to...
Don't be scared to...
