

Say It Like You Mean It

Howard Jones

Whether or not we both agree you gotta right to your opinions
You don't have to think like me, I gotta admit I don't know everything, though I
Sometimes might act like I do disrespect you I don't mean to
Stop compromising apologising

Go on
Say it like you mean it
Go on
Tell it like it is
Fight on
For all that you believe in, and
Shout it shout it out

Think of the time when we first met 'n I began to get to know you
Tryin' to say what you'd expect, I started to get so disconnected I
Acted like somebody else, just to please you, could you see through
All my frustration , my hesitation (you said)

Go on
Say it like you mean it
Go on
Tell it like it is
Fight on
For all that you believe in
Shout it shout it out

Close the distance
Between you and I
Conversation
Until we see eye to eye

Go on
Say it like you mean it
Go on
Tell it like it is
Fight on
For all that you believe in
Shout it shout it out c'mon and shout it out
For all that you believe in
Say it like you mean it
Say it like you mean it
Say it like you mean it
Say it like you mean it
