

Shine Through

Howard Jones

I've been thinking about you
And the pain you can't break through
I can't give you the answers
But I believe in you

Don't tell me you given up
No don't tell me your truth

Every vision and dream
All the lives you've seen
It's all, it's all inside
Like the light in the sky
Shines through your eyes
It's all, it's all inside

You could wait for an angel
You could wait for the stars to fall
All you want is a miracle
But you don't need it at all
