Howard Jones

I could get new wheels
Get some new veneers
Smooth those wrinkles out
But its still me
Drive car 44
Find an exoplanet
Make a way to travel through time
Still the same old me

I got to change what's in my head
Have a new take on the world
It's up to me, I need to feel good whatever
Transform
Transform

I could change my look
Wear the latest fashion
Move to a new town
But its still me
Earn 10 zillion bucks
Be a YouTube trendsetter
40 million twitters online
Still the same old me

I got to change what's in my head
Have a new take on the world
It's up to me, I need to feel good whatever

Opportunity in everything I choose to see
Don't take it personally claim it now its happening to me
I will write the script drop the victim and take the hit
Start to be in control of it
The hero rises from the muddy pit

I got to change what's in my head
Have a new take on the world
It's up to me, I need to feel good whatever
