Worry

Worrv

Sometime a feeling just come over me Make my hands sweaty, make my heart beat I got butterflies all tied up inside I can't sleep even when I count sheep That's worry Worry Worry Worry worry worry Worry Worrv Worry Worry worry worry When I go to the doctor And I know I'm getting a shot I try to run away But I always end up getting caught And that's when the feeling just come over me Make my hands sweaty, make my heart beat I got butterflies all tied up inside I can't sleep even when I count sheep That's worry When I go to the playground Will I get pushed off the swing? When I go to music class I pray I don't have to sing When I eat in the lunchroom Will I have to sit all alone? If they run out of ice cream Will I be left with an empty cone That's worry Worry Worry Worry worry worry Uneasiness cause me so much distress I'm even agitated by my own edginess You'd think I would learn to lose my concern But as soon as I stop I make a u turn to worry Worry Worry Worry worry worry Worry
