

Anyone

Howie Day

Say you never wanted change
You've fallen into place
I don't want to see you when you go
'Cause I want a little peace of mind

But I'd believe in anyone
Service got to make a show
But I'd believe in anyone

I see you there but you're out of reach
Treading water and half asleep on cue
I don't want to see what you will do

Days are turning into plays
We're playing back in space
I don't want to see you when you know

But I'd believe in anyone
The service got to make a show
Well, I'll believe in anyone
(I believe we'll never know...)

I was never one to find
Summers that were in July
In the winter we can make it right

I see you there, but you're out of reach
Treading water and half asleep
So you say you never want to change
'Cause I want a little peace of mind

And I'll believe in anyone
Service got to make a show
And I'll believe in anyone
(I believe we'll never know...)
