

Life Size

Howie Day

We are life size
On the skyline
Just too big to hide
Birds of Paradise

When I'm outside
Walking in time
With you by my side
I could die, I could die

Ohhh I could die

Never satisfied
Never living in the moment
Say you never mind
Spoken like the truth moment

Call me what you like
Why you meditate
Life will never change
Either way, either way

Ohhh either way

Time has come undone
If I die young the world
So time has come undone

I live outside
On a streamline
Cut me off line
Raw of land mine
Be my luminar
Only phone call

When it's late
On the road I'll you again
On and on
Be my friend

Long this time
You better learn
All alone
Let It go

Looking down
Back again
All alone
Be my friend

Long this time
You better learn
All alone
You let it go
