

Love Is Never Lost

Howie Day

First, we were on our own
But we had ourselves
And wanted more
We drew in the starry night
Lit by firelight
Till it came ashore

I know love is never lost
'Cos every motion has its cost
Even oceans turn to dust
I know love is never lost

Then a collective dream
Made of smoking screens
Took us town to town
Once we were so afraid
When the bases changed
Buried in the ground

I know love is never lost
'Cos every motion has its cost
Even oceans turn to dust
I know love is never lost

Now, when the silence comes
And the work is done
Can we hear the sound
We can 'cos we're up in space
In a tiny place
That we made our own

I know love is never lost
'Cos every motion has its cost
Even oceans turn to dust
I know love is never lost
