

## Make Peace

Howie Day

You come out the hard way  
You come out the hard way, don't you?  
Is there nothing left to say  
When it's 4am and the morning's calling?

For once in your life  
You were born, you will die  
Make peace  
Make peace

I see you woman alone in a canyon  
I hear a woman cry tears from her eyes  
But is it raining in West Memphis?  
Is it raining in West Memphis, tell me?

For once in your life  
You were born, you will die  
For once in your life  
Make peace

Say goodbye to what you thought it was wrong  
Say hello to the wolves at your door  
You are not alone, there's a crowd of us wandering  
The same road you're walkin and I lead and you follow

For once in your life  
So for once in your life  
Cause we were born starry eyed, you and I  
Make peace  
Make peace  
Make peace
