

Back To The Grave

Howler

What goes on
When you're underground
Will you be digging my grave
When I'm no longer around?
Where will you be in 2023
In someone else's arms
But that will not be me

I want someone to take me home tonight
We'll go back to the grave
Before we turn out the lights
I want someone to try to break my heart
So when there's nothing left
There will be nothing to start
