

Betrayal

Howler

I thought you were my friend
Fighting side by side
You taught me to control the beast
But it was just a lie

Stay away from me
I can see through your mask
Your masters will regret this game
Leave your puppets behind

I can't forgive you
Your end is near

(Chorus)
This is the betrayal
A wound in a bear bone
This is the betrayal
In my heart

This is the betrayal
A look of destruction
This is the betrayal
In my eyes

You used tricks on me
A zombie you can tell
But I was able to wake up
Your mind control is dead

I have found my own path
A path of death and pain
My dark fate is awaiting me
Everything will fall away

I can't forgive you
Your end is near

(Chorus)
