

Power Source

Howler

Everybody is waiting, the show is about to start
Hear the time bomb ticking, get ready for the blast
You can feel the force field growing deep inside
When the wick of Thrash ignites we're going to blow your mind

Now it's clear the power flows within
No other reason to be
We just were born to win

The power source
Awakening the storm
The power source

Nobody can stop us, we are an anomaly
Breaking the silence, let's begin the insanity
We are determined to face all authority
With power and rhythm to awake all humanity

Now it's clear the power flows within
No other reason to be
We just were born to win

The power source
Awakening the storm
The power source
The power source

The power source
Awakening the storm
The power source

Commotion in the pit, there's no one to blame
The stream of madness glows, the fuel for what we make
Turning the lights out, tipping the scales again
The disease became the cure, throw your pills away

Now it's clear the power flows within
No other reason to be
We just were born to win
The power source
Awakening the storm
The power source
