

# Sacrifice

Howler

Screams of war, a shade in the sun  
Your eyes are lost in the horizon  
The cold touch of death, is taking your breath  
The battlefield is not your place

Rivers of blood run through the field  
The hardest fight against the undead  
Tricks from hell, black witchery  
The troops are losing their faith

(Prechorus)

Look at me  
Together we'll fight  
Forget the pain  
We're covered in blood  
Once again  
The battle is on  
So come on! Sacrifice!

(Chorus)

Just watch my friend, everybody is falling  
Don't lose your faith, we need to get the Dark King's head  
Trust in your strength, justice is on our side  
Even though we're dead we will keep on fighting

Raise your sword, you can't stop  
The fate of people is in your hands  
Leave any doubt, the enemy is here  
Remember you're fighting for them all

Our number falls, obscurity  
The force of evil is arising  
Butchery is here, the end is near  
Your soul is lost in this old game

(Prechorus)

(Chorus)

You asked for an ancient power  
To stop this endless war  
A power that came from the darkness  
So there is a threat behind

You must give a life in exchange  
The one you love is required to be done

A terrifying look is in your face  
The immortals are laughing at you  
You leave the place, now you're running  
And chose to fight by yourself

But she was there and she heard about the deal  
The price was paid, she gave her life for you

(Prechorus)

(Chorus)
