Howlin' Wolf

Be careful what you're drivin', man  
That Cadillac may get away, you better be careful

There standin' the highway man, standin' parked on the road  
There standin' there highway man, parked on the road  
You better watch out for the red light, just before you go

Green light says go, red light says stop  
Look-a-here boy, you better be on your watch  
There's standin' a highway man, parked on the side of the road  
You better be careful, 'bout how you drive on the road  
Stop
