

That's All Right

Howlin' Wolf

Yes, that's all right
Yes, that's all right
And the way you do this
And the way you do this

Oh baby, everything is all right

Well, she stayed out last night
Well, she stayed out last night
She don't want to treat me right
She don't want to treat me right

Oh baby, everything is all right

Well, I dreamed last night
Well, I dreamed last night
You weren't gonna treat me right
You weren't gonna treat me right

Oh baby, everything is all right
That's all right, baby

Well, she stayed out last night
Well, she stayed out last night
Comin' when the sun was bright
Comin' when the sun was bright

Oh darling, everything is all right

Don't make me cry
Don't make me cry
Well, you ought to really lie
Well, you ought to really lie

Oh darling, everything is all right
