

Sunlight

Hozier

I would shun the light
Share in evening's cool and quiet
Who would trade that hum of night
For sunlight, sunlight, sunlight
Whose heart would not take flight?
Betray the moon as acolyte
On first and fierce affirming sight
Of sunlight, sunlight, sunlight

I had been lost to you, sunlight
And flew like a moth to you, sunlight
Oh your love is sunlight
Oh your love is sunlight
But it is sunlight

Oh, the tale is the same
Told before and told again
A soul that's born in cold and rain
Knows sunlight, sunlight, sunlight
At last can grant a name
To a buried and a burning flame
As love and its decisive pain
Oh my sunlight, sunlight, sunlight

All that was shown to me, sunlight
Was something foreknown to me, sunlight
Oh your love is sunlight
Oh your love is sunlight
But it is sunlight
Oh your love is sunlight
Oh your love is sunlight
But it is sunlight
Sunlight

All these colours fade for you only
Carry me slowly, my sunlight
All these colours fade for you only
Carry me slowly, my sunlight

Each day you rise with me
Know that I would gladly be
The Icarus to your certainty
Oh my sunlight, sunlight, sunlight
Strap the wing to me
Death trap clad, happily
With wax melted I'd meet the sea
Under sunlight, sunlight, sunlight

Oh your love is sunlight
Oh your love is sunlight
But it is sunlight
Oh your love is sunlight
Oh your love is sunlight
But it is sunlight
Oh your love is sunlight
Oh your love is sunlight
But it is sunlight

Oh your love is sunlight
Oh your love is sunlight
But it is sunlight

Sunlight, sunlight, sunlight, sunlight, sunlight
