

# Dopamine

HRVY

Summer nights and you can't sleep  
And my phone lights up 'cause you text me  
Now I'm waiting for you, babe  
I'm waiting for you, oh

Give me five, I'll be on your street  
If you're feeling down, need some company  
I'll be waiting for you, babe  
I'm waiting for you

What if we said goodbye  
To the city tonight  
Make some memories for life  
Make you feel alright

So if you're feeling lonely  
Yeah you can always call me  
Baby, I can be what you need  
I can be your dopamine, your dopamine  
If you're feeling lonely  
Yeah you can always call me  
Baby, we could be evergreen  
I can be your dopamine, your dopamine yeah

The night is young and we are too  
And I love the thrill I get with you  
Make my dreams reality  
Oh you're my dopamine

What if we said goodbye  
To the city tonight  
Make some memories for life  
Make you feel alright

So if you're feeling lonely  
Yeah you can always call me  
Baby, I can be what you need  
I can be your dopamine, your dopamine  
If you're feeling lonely  
Yeah you can always call me  
Baby, we could be evergreen  
I can be your dopamine, your dopamine yeah

Ah, ah  
Ah, ah

So if you're feeling lonely  
Yeah you can always call me  
Baby, I can be what you need  
I can be your dopamine, your dopamine  
If you're feeling lonely  
Yeah you can always call me  
Baby, we could be evergreen  
I can be your dopamine, your dopamine yeah
