

# High

HRVY

You and me against the world  
Imma take you with me girl  
Baby come with me, baby come with me  
Life's a game of truth or dare  
It don't matter I don't care  
Baby come with me, baby come with me

I got that hot life I wanna show ya  
I'll take you places you've never seen  
And when you wake up here on my shoulder  
You'll be here with me, you'll be here with me

(I wanna get high)  
Just high enough to fall for you  
(I wanna get high)  
And we can make the memories, the scrapbook of our lives  
Is this the start of you and me?  
(I wanna get high, I wanna get high)  
Get high together  
Get high together  
Get high together

You and me against the rules  
Nothing but incredible  
Girl when you're with me, girl when you're with me (Ohhhhh)  
Rolling down from paradise  
Lighting up your pretty eyes  
Girl when you're with me, girl when you're with me (Ohhhhh)

I got that hot life I wanna show ya  
I'll take you places you've never seen  
And when you wake up here on my shoulder  
You'll be here with me, you'll be here with me

(I wanna get high)  
Just high enough to fall for you  
(I wanna get high)  
And we can make the memories, the scrapbook of our lives  
Is this the start of you and me?  
(I wanna get high, I wanna get high)  
Get high together  
Get high together  
Get high together  
Get high together  
Get high together

(I wanna get high)  
Just high enough to fall for you  
(I wanna get high)  
And we can make the memories, the scrapbook of our lives (Ohhh)  
I wanna get high (I wanna get high)  
Get high together

(I wanna get high)  
Just high enough to fall for you  
(I wanna get high)  
And we can make the memories, the scrapbook of our lives

Is this the start of you and me?  
(I wanna get high, I wanna get high)  
Get high together  
Get high together  
Get high together  
Get high together  
Get high together

You and me against the world  
Imma take you with me girl  
Baby come with me
