

# Nevermind

HRVY

Nevermind, nevermind, nevermind  
You were never mine, never mine  
What a time, what time, what a time  
You were never mine, never mine

Flipping through my memories  
Memories just make it hard  
I don't remember leaning in  
It was you first

Ever think of telling me  
Telling me I have a heart  
Running with the other half  
Got a head start

Bed is empty and fifty percent  
Overloaded with all the words I wish I said but

Nevermind, nevermind, nevermind  
You were never mine, never mine  
What a time, what time, what a time  
You were never mine, never mine  
Thought you were falling for me, baby  
You were just slipping through my hands  
Nevermind, nevermind, nevermind  
You were never mine, never mine

It was February when  
We snuck out your parents house  
It was February then  
But it's not now

I was gonna build you up  
I was gonna love you down  
I was totally prepared  
To give you everything I had but how 'bout

Bed is empty and fifty percent  
Overloaded with all the words I wish I said but

Nevermind, nevermind, nevermind  
You were never mine, never mine  
What a time, what time, what a time  
You were never mine, never mine  
Thought you were falling for me, baby  
You were just slipping through my hands  
Nevermind, nevermind, nevermind  
You were never mine, never mine

Mine, you were never  
Mine, you were never  
Mine, you were never  
You were never mine, never mine

Mine, you were never  
Mine, you were never  
Mine, you were never

You were never mine, never mine

Bed is empty and fifty percent  
Overloaded with all the words I wish I said but

Nevermind, nevermind, nevermind  
You were never mine, never mine  
What a time, what time, what a time  
You were never mine, never mine  
Thought you were falling for me, baby  
You were just slipping through my hands  
Nevermind, nevermind, nevermind  
You were never mine, never mine

Mine, you were never  
Mine, you were never  
Mine, you were never  
You were never mine, never mine

Mine, you were never  
Mine, you were never  
Mine, you were never  
You were never mine, never mine
