Save Me

HRVY

One night in the city
One night tryna find myself
My mind's so busy
Spent the night with someone else
Got high 'cause I'm feeling low
Holding tight, never letting go
But one night in the city
One night can change it all

'Round and 'round in circles till I met you at the stoplight
I can still remember touching you and what it felt like
'Round and 'round in circles till you saved me for the first time
For the last time
That's when you saved me
From myself
Saved me
Yeah, you saved me
From myself
Saved me
I was lost without you until I found you
You're bringing me back around
Save me from myself

That's when you

That's when you saved me from myself
Saved me
Yeah, you saved me
From myself
Saved me
That's when you

That's when you

That night in the city
Ten steps behind myself
My mind wasn't pretty
Until you took me somewhere else
Got high 'cause I'm feeling low
No, I'll never let you go 'cause
One night in the city
One night you changed it all

'Round and 'round in circles till I met you at the stoplight
I can still remember touching you and what it felt like
'Round and 'round in circles till you saved me for the first time
For the last time
That's when you saved me
From myself
Saved me
Yeah, you saved me
From myself
Saved me
I was lost without you until I found you
You're bringing me back around
Save me from myself

```
That's when you
That's when you
That's when you
(Oh, yeah, oh, yeah, oh, yeah)
That's when you
(Saved me from myself)
That's when you
```
