

I Came To You - Oriental Moon

Hubert Kah

I couldn't find a reason why
I had burned my candle down
and never thought that I could shine again.
And every night I closed my eyes
dreamin' of the time
when I could feel and things were real
but these things were cheating my mind.
Then I came to you - aha
Oriental moon
I came to you - aha
your heavenly light
and I believed in life
I came to you - to you.

A silver sign, a golden friend
there's harmony to find
so easy, when you
look up to the sky.
And when I start
to be afraid
I feel your warm
embrace
I'm hoping for
a better day
and fears are fading away.

'Cause I came to you - aha
Oriental moon
I came to you - aha
your heavenly light
and I believed in life
I came to you - to you
Your heavenly light
and I believed in life
I came to you
yes, I came to you - to you.
