

Limousine

Hubert Kah

I'm leaving home
Your baby's gone
My mind is ache
I just can't sleep
With that locomotion theme in my black old limousine.
No wooden heart
I feel the rain
They drink champagne
I just can't sleep
With that locomotion theme in my black old limousine.
My locomotion dream -
Locomotion dream - living here in my black old limousine
Locomotion dream - living here in my black old limousine
Locomotion dream - living here in my black old limousine.
Why don't you stay so far away
I just can't sleep with that locomotion
Theme in my black old limousine.
No time for tea
No time for me
As years go by
I just can't sleep
With that locomotion theme in my black old limousine.
My locomotion dream -
Locomotion dream - living here in my black old limousine
. . .
I'm rolling home
My time has come
I'm on my way
Don't let me down
In my black old limousine with that locomotion dream.
Locomotion dream - living here in my black old limousine
. . .
Locomotion dream - living here in my black old limousine
. . .
Locomotion dream - living here in my black old limousine
. . .
