

Midnight Sun

Hubert Kah

Heard you sayin' good-bye my friend
Midnight sun's the place we'll meet again
Christmas Eve, some rain set in
Didn't know the meaning kept within

You can count on your friend
Count on your friend
Just follow the midnight sun
Midnight sun

The yellow peeled-off garden fence
Would you run and play with me again
You maybe got to know my dreams and all my life
Happened in between, now that you died

I still call on my friend
Call on my friend

We follow the midnight sun
Midnight sun

Every day I go insane
Walking on the mines that I have laid
And maybe I will never see that midnight sun
You'll be shinin' like a burning flame

You can count on your friend
Count on your friend
We follow the midnight sun
Oh maybe you would lend me your hand
You can count on your friend
We follow the midnight sun, midnight sun
We follow the midnight sun, midnight sun
