

Addicted To You

Huddy

Contemplating your temptations
They yell at us but we won't listen
Pull me close and now we're kissin'
You've always been my addiction
Send me to the stars above
I would kill for you, my love
To see your smile when I wake up
Fuck, I can't get enough

She said, "I like your style and your tattoos"
The very first night that I met you
I just wanted to impress you
You stole my heart and I let you
Let's hold on a little longer
Pretend it's the last day on Earth
In the end it doesn't matter
'Cause I'm so addicted to you
'Cause I'm so addicted to you
('Cause I'm so addicted to you)

You make me high, it's too easy
My escape without a reason
In the way (Way), you touch my face (Face)
You numb my pain
When I'm feelin' like I'm dyin'
'Cause I need you one more time
And more than ever, now or never
Just one last breath

She said, "I like your style and your tattoos"
The very first night that I met you
I just wanted to impress you
You stole my heart and I let you
Let's hold on a little longer
Pretend it's the last day on Earth
In the end it doesn't matter
'Cause I'm so addicted to you
'Cause I'm so addicted to you
('Cause I'm so addicted to you)

She said, "I like your style and your tattoos"
The very first night that I met you
I just wanted to impress you
You stole my heart and I let you
Let's hold on a little longer
Pretend it's the last day on Earth
In the end it doesn't matter
'Cause I'm so addicted to you
'Cause I'm so addicted to you
('Cause I'm so addicted to you)

I'm addicted to your love even though it's poison
You shot me in the eyes with Cupid's bow, yeah
I can't run away, this the only life right now
