

# All The Things I Hate About You

Huddy

Hahaha

Take a bow  
You've got everybody fooled, I got you figured out  
Now you're chokin' on your words, well, you should spit it out  
You know that I gave you the world and you just gave me hell  
And you gave me hell

Felt like a hundred punches  
Too many tough pills to stomach  
I watched you making it public  
Lights, camera, fuck it

You're a showstopper  
A bad liar, homie hopper, drama starter  
All my friends are fucked, we all got you in common  
You're so fake and everyone should know about it  
And all the things I hate about you

All the things I hate about you, yeah  
All the things I hate about the way you manipulate me  
Left me with no explanation  
Every word is true, all the things I hate about you  
(All the things I hate about you)

You could've had a rockstar  
But you chose up on a bumstar  
Bootleg version of me, that's your loss  
Had to find out through a photo  
Hangin' on your arm like a knockoff

Stab me in the back like nothin'  
Never even saw this comin'  
I watched you making it public  
Lights, camera, fuck it

You're a showstopper  
A bad liar, homie hopper, drama starter  
All my friends are fucked, we all got you in common  
You're so fake and everyone should know about it  
And all the things I hate about you

All the things I hate about you, yeah  
All the things I hate about the way you manipulate me  
Left me with no explanation  
Every word is true, all the things I hate about you  
(All the things I hate about you)

You won't break me again and say it's all in my head  
Holdin' his hand in that dress from the night that you left  
I'm so sick of the pain, I'll never see you the same  
Guess that's the price that you pay for the mess that you made

You're a showstopper (Let's go)  
A bad liar, homie hopper, drama starter  
All my friends are fucked, we all got you in common (Okay)  
You're so fake and everyone should know about it

And all the things I hate about you (Yeah)

All the things I hate about you, yeah

All the things I hate about the way you manipulate me (Yeesh)

Left me with no explanation

Every word is true, all the things I hate about

Every single thing about you
