

# Don't Freak Out

Huddy

I am a broken record  
You are my missing piece  
Even though sometimes I treat you like you're my enemy  
I got this stupid habit  
Of pushing you away  
I say that I want you to leave but I want you to stay

I'm sorry  
I'm crazy  
Just hear me out

Don't freak out if I'm not okay  
Don't freak out if I tell you things  
Don't freak out if I leave you  
Don't freak out 'cause I need you  
Don't freak out if I tell you secrets bout my past and all my demons  
It might be crazy but if I gave you my heart now  
Don't freak out

We gon' end up back where we started  
Gotta get away from your love cause it's toxic  
Didn't have to do it, but I'm already off it  
Playing with the love but you better keep caution  
I'ma pour another drink rollin' up my dreams  
Didn't want to let go, it was make believe  
I can't hold it in  
Not another minute  
Always seem to act up when I get drunk

I'm sorry  
I'm crazy  
Just hear me out

Don't freak out if I'm not okay  
Don't freak out if I tell you things  
Don't freak out if I leave you  
Don't freak out 'cause I need you  
Don't freak out if I tell you secrets bout my past and all my demons  
It might be crazy but if I gave you my heart now  
Don't freak out

Tell me all the words that will make you stay  
Tell me what to do just to make it right  
How many times do I have to say I'm fine, I'm fine

Tell me all the words that will make you stay  
Tell me what to do just to make it right  
How many times do I have to say I'm fine, I'm fine

I'm sorry (I'm sorry)  
I'm crazy (I'm crazy)  
Just hear me out (Just hear me out)

Don't freak out if I'm not okay  
Don't freak out if I tell you things  
Don't freak out if I leave you  
Don't freak out 'cause I need you

Don't freak out if I tell you secrets bout my past and all my demons  
It might be crazy but if I gave you my heart now  
Don't freak out
