Headlock

Huddy

I found myself regretting
Our love's like cigarettes when I'm drunk
The pain is never ending
I'm tired of pretending, it does

Been like this forever
We're not getting better
Long as we're together

You got me in a headlock, I can't escape
I can feel my skull turn to a grenade
I don't wanna leave, but it kills me to stay
You got me in a headlock, I can't escape
I fade away, I fade away
I fade away, I fade away

I can't go on
I'm dying to forget you
Yeah, I wish I never met you
When I can't believe I let you break my heart
Now all I am is empty
Close your eyes and kiss me deadly
You're the gift the devil sent me

Been like this forever
We're not getting better
Long as we're together

You got me in a headlock, I can't escape
I can feel my skull turn to a grenade
I don't wanna leave, but it kills me to stay
You got me in a headlock, I can't escape
I fade away, I fade away
I fade away, I fade away

Been like this forever
We're not getting better
Long as we're together (I fade away, I fade away)

You got me in a headlock, I can't escape
I can feel my skull turn to a grenade
I don't wanna leave, but it kills me to stay
You got me in a headlock, I can't escape
I fade away, I fade away
I fade away, I fade away
