Huddy

I don't care 'bout anything, anything, anything
I don't care 'bout anything, but you

She calms me down when I'm mad
She makes me laugh when I'm sad
She always calls me right back, yeah, yeah, yeah
She wears her Vans with a dress
She's perfect when she's a mess
She makes me feel less depressed, yeah, yeah, yeah

She's cool, she's hot, she's pretty
So best part of the city
The rest is dark and shitty
But when you're laying with me

I don't care 'bout anything, anything, anything
I don't care 'bout anything, but you
I don't care 'bout anything, anything, anything
I don't care 'bout anything, but you
You know I do

I don't give a fuck about rules
Let's go get high and ditch school
No parents home, so it's cool, yeah, yeah, yeah
My dad says I need a job
My preacher says I need God
My girl is all that I want, yeah, yeah, yeah

She's cool, she's hot, she's pretty
So best part of the city
Life's stressful, I can't take it
But when I see you naked

I don't care 'bout anything, anything, anything
I don't care 'bout anything, but you
I don't care 'bout anything, anything, anything
I don't care 'bout anything, but you
You know I do (You know I do)

I don't care 'bout anything, anything, anything
I don't care 'bout anything, but you
I don't care 'bout anything, anything, anything
I don't care 'bout anything, but you
You know I do (You know I do)
